FLEXIBLE DESIGNS For The Service

CARDWELL components are built-to-fit, yet are capable of quick modification, because they use so many standard CARDWELL stock parts.

This is one of the reasons why many CARDWELLS like these shown, and others, are now being widely used in military field equipment.

What's in a Name like

Par-Metal

The old verse, "A rose by any other name would be as sweet," may apply to flowers but when it comes to Cabinets, Chassis, Racks and Panels—names **do** mean a whole lot.

The name "Par-Metal" on the parts you buy is your assurance that you are getting a Quality product, accurately machined, streamlined and modern in appearance. It means that you are buying a product that is the choice of many discriminating amateurs, servicemen and engineers.

Next time you build, **specify PAR-METAL.**

Typically rugged, precision made, assembled on a moulded Bakelite base, these relays have many mechanical and electrical features that assure long life under the severest operating conditions.

They are suitable for thermal regulators, electronic devices, ultra sensitive control circuits; low current supervised circuits such as burglar and fire alarms, voltage control circuits, keying, tuning devices, etc.

Operating characteristics . . . for AC . . . as low as one mill at 110 volts, 60 cycles with a 50% drop out value; for DC . . . as low as .012 watts with 80% drop out value.

Dimensions . . . over-all 2 3/8" wide, 2 3/4" long and 1 3/4" high.

ALLIED manufactures a complete line of relays for all communication and electronic devices.

Available at all leading jobbers throughout the country. Write for complete descriptive data and prices!

QUALITY IS NEVER AN ACCIDENT

... It is always the result of firm intention, of sincere effort, of intelligent direction and skillful execution! **QUALITY** represents the wise choice of many alternatives and the cumulative experience of many craftsmen. It shows—after necessity has been satisfied—the success of a determined purpose.

Applying this standard, it is not difficult to understand why "HYTRON" has come to be a synonym for "QUALITY" when it comes to transmitting tubes.

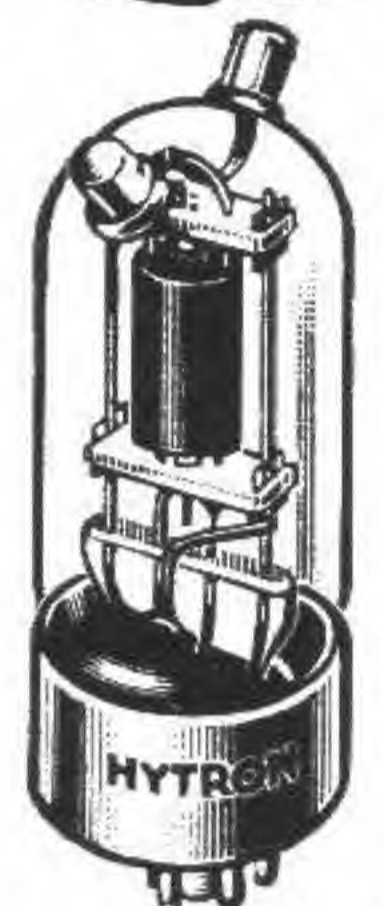

A continuous record of 20 years' experience in the exclusive manufacture of radio receiving tubes is no accident either. It **proves** that the determined purpose of the Founders to produce the best within human limitations, is recognized and appreciated!

Honestly rated on the basis of continuous service operation (in contrast to overload ratings) Hytron transmitting tubes are really outstanding. For example: HY69 instant-heating R.F. beam tetrode with 40 watt dissipation and HY75, HY114 and HY615 which hold many UHF records including the world's record on 1 1/4 meters.
